The following is a condensed version of the requirements listed in the basic document of each college Honors program.

All colleges have the following requirements in common:

- You may apply to your College Honors Program if you have at least 48 credits remaining before graduation. (On a standard four-year program, this generally means that applications must be submitted no later than the fall of your junior year.)
- You must maintain a cumulative grade point average of 3.50.
- You need to submit a Program of Study to the Chair of your College’s Honors Committee (see resource list below).
- You need to complete an Honors Project. Colleges require students register for a minimum number of research credits.

NOTE: All of the numbers in the following chart are the minimums:

<table>

<td>300+ level credits</td>
<td>As many as possible</td>
<td>50-60</td>
<td>As many as possible</td>
<td>See Program of Study sheet</td>
<td>As dictated by major</td>
<td>60 or more</td>
</tr>
</tbody>
</table>

* With regard to Honors seminars, “1 per year” means one seminar per year of membership in the Honors Program, not including first-year membership.

** The College of Engineering also has additional Honors requirements. Be sure to check out the requirements at the following link:
http://www.engineering.iastate.edu/engrhonors/forms/
